

# Mandrel Bend Tooling Chart

# Precision tube bending in Aluminium, Inconel, Stainless Steel & Titanium

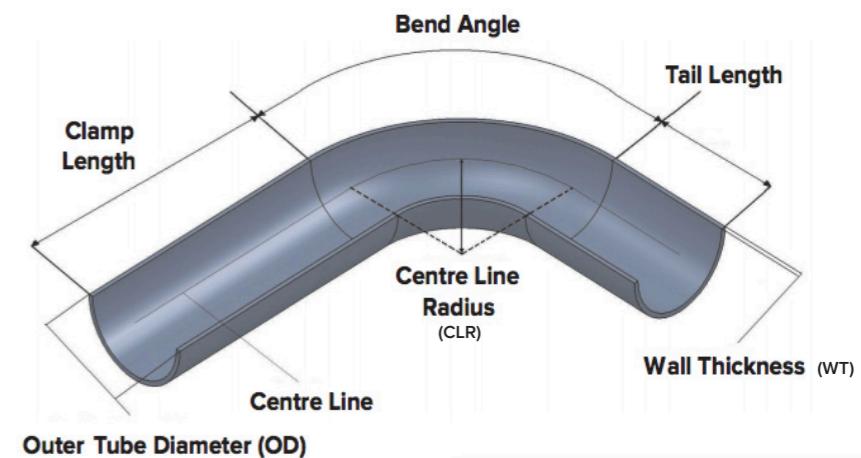

To request quotes for Stainless 304 & 321, Inconel, Titanium & Aluminium, use our online bend quote form at:

[www.goodfabs.com/tube-bending](http://www.goodfabs.com/tube-bending)

Alternatively, you can request a quote by emailing - [info@goodfabs.com](mailto:info@goodfabs.com)

Please include the following details:

1. The material you want (Aluminium, Inconel, Stainless Steel or Titanium);
  2. The outer diameter (OD) of the tube & the Centre Line Radius (CLR) corresponding to your chosen OD;
  3. The tube's wall thickness (WT);
  4. The bend angle & any tail length needed;
  5. Quantity.

# GOODFABS

PERFORMANCE EXHAUSTS

Please contact us if you need tooling not on this chart.

Due to the amount of bend variations we do not stock bends but we make them to order in short timeframes – normally 1-2 weeks
